

Static batching — the baseline

Rank by first-stage score · peel off batches in order · never look back

CANDIDATE POOL

sorted by first-stage score (BM25 / dense)

■ BM25 ■ dense ■ affinity ■ neighbor

EXPENSIVE RANKER

*cross-encoder /
RankLLaMA / etc.*

scores docs in batch

Reranker scores order the final output — *but never decide what comes next.*

The information from batch 1 is thrown away. ORE is what happens when you keep it.
